# WORKSHEET: INTRODUCTION TO OCEANOGRAPHY

# WORKSHEET: INTRODUCTION TO OCEANOGRAPHY

## ACROSS

2. drifting, robotic device
6. human-caused change
8. a measure of the ocean's saltiness
9. used to control float's buoyancy
10. conversion of light and CO<sub>2</sub> to O<sub>2</sub> and food
11. mathematical tool used by oceanographers to predict ocean conditions
14. indicator of phytoplankton biomass
15. floats X to a maximum depth of 2000 m; what is X?
16. leader of the Canadian BGC Argo team

## DOWN

1. a set of measurements of an ocean property from the surface to deep within the ocean
3. BGC for short
4. data transferred between float and land using this system
5. conductivity temperature depth
7. studies ocean processes and things we can't see with the naked eye
12. a framework of bottles that enables oceanographers to collect water from different depths
13. vessel of traditional oceanography
